

MATHS

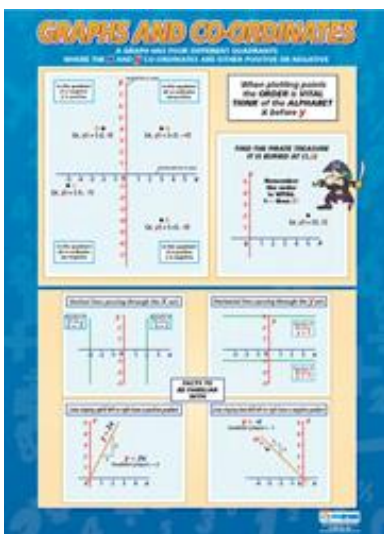

Posters

The posters are colourful and informative. Using the posters in the classroom, noticeboards and corridors makes learning fun and interesting and teaching becomes easy and effective too.

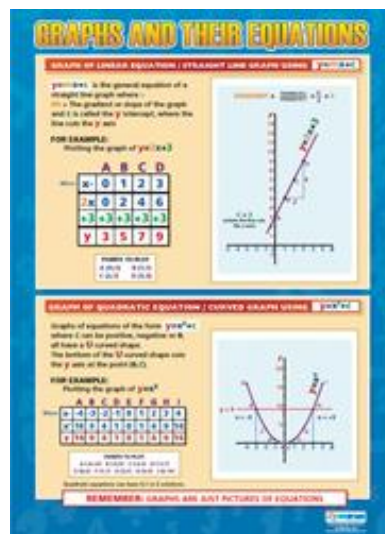

Reasons for using posters

1. About one third of students in an average classroom are visual learners.
2. Visual learners respond well to **colour**.
3. Images, photographs and diagrams are helpful learning aids for visual learners.
4. Words linked to pictures help visual learners grasp and remember new concepts.
5. Posters help reinforce important concepts and can be referred to regularly.
6. Posters can act as reference for students instead of asking the teachers.
7. Posters can keep your classroom/school fresh and **stimulating**.

Posters – Graphs

Posters – Snap Frames

Snapframes are designed for quick and hassle free changeover of posters. They are sold fully assembled and ready to use, with clear PVC cover sheet to protect your poster. The frames are light enough to wall-mount with 4 screws.

All four sides of the Snap Frames can be easily snapped open. Just lift up four sides of frame by hand, insert your poster, place protective sheet on top and then snap frames to close without tools, as easy as 1-2-3!

Features & Benefits of Snap Frame

- Simple - access on all sides of the frame, simply flip open and change posters!
- Good visibility - clear and non-reflective PVC cover
- Durable - made of lightweight yet strong aluminium
- Instant - requires no assembly and arrives ready to use.
- Quick - Change poster from the front, no tools required!
- Eye catching - attracts attention of customers walking past
- Stable - Easy and quick wall mount with use of screws or poster hooks
